

Arts and Science Associate Degree Programs

Program Information

Camosun College's Arts and Science Associate Degree programs prepare students for employment in a range of professional fields and organizations. Students available for work terms have completed a minimum of eight courses toward their 20-course Associate of Arts or Associate of Science Degree. The areas of study for associate degrees are diverse.

All students have met academic requirements of at least a C+ average and have specialized knowledge in their program areas. The Associate Degree program focuses on enhancing students' written and oral communication abilities, critical thinking and research skills.

- General Arts
- Anthropology
- Biology
- Chemistry
- Creative Writing
- Criminal Justice
- Economics
- English
- French
- Geography
- History
- Math
- Philosophy
- Political Science
- Pre-Medicine
- Pre-Social Work
- Psychology
- General Science
- Sociology

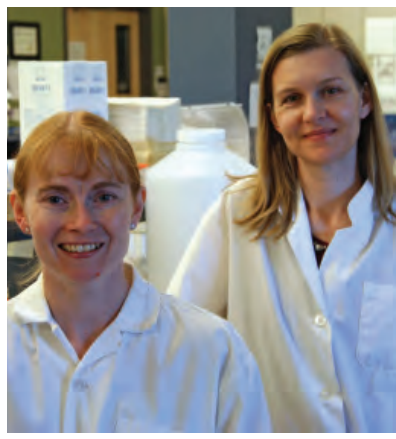

What is Co-operative Education?

Co-operative Education combines classroom study with periods of related work experience. Students alternate between academic studies and paid employment with co-operating employers in business, industry and government.

Students are eager to work hard, learn and contribute their knowledge and skills to the success of your organization. They require an orientation to the position, regular supervision, and some guided performance feedback at the mid and end points of the work term. A program faculty member will meet with you and the student during the work term.

How will my Organization Benefit?

- Prescreened job applicants
- Motivated employees
- A tool to recruit future employees
- Cost effective hiring
- Temporary staff
- Special skills
- Flexible staffing for special projects
- Responsive to employers' needs

Education that works!

Arts and Science Associate Degree Programs

Student Availability

Students are available for four month work terms beginning in May after their first year of studies and may be available for subsequent work terms in January or September, depending on their academic schedule. Contact the co-op office to discuss work term options.

Education that works!

Get involved!

Contact the Co-op Staff **1**

PHONE 250-370-3425
A member of the Co-op staff will assist you to determine your Co-op needs, answer any questions you may have, and work with you to develop a job description for posting. Employers set the salary for Co-op students based on fair market wage.

We Post, then you Interview **2**

Your job description will be posted for all qualified Co-op students in the appropriate program(s). At the end of the posting period, (typically one week), the Co-op staff will forward the resumes of interested students to you. When you have shortlisted the applicants, the Co-op staff will arrange an interview schedule to suit your needs. Interview space is available on campus for your convenience.

Select a Co-op Student **3**

If you find a suitable candidate for the position you have posted, the Co-op staff will assist you in extending an offer of employment and confirming details and conditions of the position.

“I see real value in the Camosun co-op program. We are able to invite bright, enthusiastic students who have a keen interest in making a real contribution into our workplace. It gives the student the chance to evaluate our organization while we are evaluating them.”

*Lisa Baergen,
Manager of Marketing Communications
Agresso Corporation*

“I am very impressed with the knowledge, skills and abilities of the co-op students we interviewed. It was difficult to choose just one!”

Sue Dickson, Ministry of Environment
