Introduction

The South Island Partnership Manual is a tool for communicating the goals, programs, courses, policies, procedures and application packages used by the South Island Partnership and the staff that works on behalf of the partnership.

The SIP Manual includes five sections and is intended to be used by Secondary School and College staff to support secondary student participation and program development initiatives. The Manual is intended to be updated annually, prior to each school year with the most up to date information and will be posted on the South Island Partnership Website for downloading each September.

For more information on the Manual and to access, electronic versions of the updated Manual contact the SIP Office.
