

Public Service Commission Co-op Job Postings

The Federal Government (Public Service Commission) has requested that all co-op institutions post the following statement on all federal government co-op job postings:

“Successful completion of both your educational program and a co-op/internship work assignment may lead to temporary or permanent federal public service positions for which you meet the merit criteria and conditions of employment.”

This only applies to students doing sanctioned co-op/internship work terms as listed here:
