On March 14, 2020, Camosun announced the transition from face-to-face instruction and service delivery to alternative instruction and assessment. Since that time, the majority of Camosun's classes have been online with the exception of those classes that need to come on campus such as access to labs and equipment. Our students continued to receive exceptional education albeit either online or physically distanced Camosun did everything possible to ensure that our campus and field trips were safe for students. We continued to provide our student supports and services as needed and expected, however, online or over the phone.

As colleges and universities in B.C. plan for a full return to campus in September 2021, the health and safety of students and employees remains the topmost priority.

Learn more about Camosun’s COVID-19 response
Located in beautiful Victoria, British Columbia, Camosun sits on two campuses 12 km apart, minutes away from downtown, nightlife, parks, trails and the ocean.

SEEKING KNOWLEDGE IN THESE TERRITORIES
Camosun College campuses are located on the Traditional Territories of the Lekwungen and WSÁNEĆ peoples. We acknowledge their welcome and graciousness to the students who seek knowledge here.
A TALE OF TWO CAMPUSES

Camosun has two main campuses: Lansdowne and Interurban located approximately 12km apart, with bus service between them.

Historic Lansdowne campus is a five-minute walk from shopping and restaurants, 10 minutes from the University of Victoria, and 15 minutes from the downtown core.

Interurban campus sits in a more rural setting but still a quick and safe cycle or bus ride from downtown.

Explore our campuses
CAMPUS LIFE

IT HASN’T BEEN THE SAME.

With very few students on our campuses during the pandemic, it was very quiet.
With the hope of more people on campus this coming year, we’re looking at returning to the vibrant and fun campuses of before. With the return of food trucks (including Camosun’s very own Cuisine Machine!), the student-run pub at Dunlop House, CamFest, 40+ student clubs, and other celebrations and events, Camosun’s campuses will be fun and exciting places to be.

Camosun College invited students to get creative and help commemorate its 50th anniversary celebrations this year  Read more
Following the heart-breaking news that the 2020-21 varsity sports season would be cancelled due to the COVID-19 pandemic, the Camosun College Chargers took a stand to remain positive and make the best of a year that would be devoid of competition.

With the absence of games looming over our loyal fan-base, we enlisted the help of a small group of social media savvy student-athletes who reported from their “team bubbles” to keep our sports-starved supporters connected to the program, and excited to learn about the trials and tribulations facing college athletes caught in the middle of a pandemic.

The Chargers were keen to address a myriad of relevant health and social issues, and helped spread awareness of supports and services Camosun offers to students impacted by mental illness, sexualized violence and racism. Our student-athletes shared candid stories on how they kept motivated and overcame personal challenges like missing competition, dealing with being injured and struggling with feelings of sadness and uncertainty. They shared the importance of time with family and friends, taking time for yourself and how to balance school and sport. They looked back at the successes of past seasons and threw a spotlight on the alumni as a reminder of our achievements and the road ahead. They emphasized the need to create positive change wherever possible, and expressed appreciation for the opportunities they were given this season, despite the limitations.

As we charge past this pandemic season with a fresh perspective on the future, we look forward to hitting the court and welcoming everyone to our 2021-22 home openers.

UNIVERSITY TRANSFER

The Province of British Columbia has established the world-renowned BC Transfer Guide, bctransferguide.ca, which allows students to transition from one post-secondary institution to another. You can study for one to two years at Camosun and transfer your credits to a university to finish your program. It is also possible to transfer to universities in other provinces across Canada.

“I REALLY CAN’T IMAGINE MYSELF DOING ANYTHING OTHER THAN MUSIC!”

Jaimey Hamilton
MUSIC PERFORMANCE

WHEN JAIMEY WAS YOUNGER, she spent a lot of time in hospitals, which forced her to give up things like school, friends and sports. “Music was the one thing I never had to give up,” says Jaimey. “It was my healing outlet.” She found her passion in songwriting, singing and playing guitar, and later on, performing. “I really can’t imagine myself doing anything other than music!” Now she’s set to graduate from Camosun with a Certificate in Music Performance. “It’s taught me so much about the different genres of music,” says Jaimey. “What I’ve learned about music theory has helped me to communicate with fellow musicians, improve my songwriting, and taught me the history of music and how it has shaped what we hear today.” Learning during COVID-19 hasn’t been easy. All her classes switched to online which brought its own challenges. “Some of my classes we had to sing, which you can only imagine might be difficult over Zoom,” says Jaimey. “Even though it was a struggle at first, we all made it work and by the end of it, it was a well oiled machine.”

STARTING AT COLLEGE CAN BE INTIMIDATING but add moving across the world and it becomes scary. Trinakshi Saha did just that, moving from the tropical clime of India to Victoria to attend Camosun College. “I had heard great things about Camosun, especially regarding the diverse community and the accepting nature,” says Trinakshi. “The huge cultural difference was a challenge but people here are extremely nice and friendly. Camosun became home.” She found the Human Resource Management program very hands-on and practical. “The program not only gives you theoretical knowledge about the subject but also helps you with problems in real life,” says Trinakshi. “The best thing about Camosun classrooms is the diversity. It is so helpful when you are out in the professional world.” She also found her instructors to be helpful and friendly. “I love working with my instructors,” says Trinakshi. “The classroom sizes are smaller and more personal so instructors know all their students.”

WALTER PARSONS GRADUATED HIGH SCHOOL IN CAMPBELL RIVER IN 2009, going straight into university. Unfortunately, university life didn’t work out for him. “I was having a difficult time balancing the part-time work that was paying my way through UVic and my studies in Electrical Engineering,” says Walter. “It was sinking my finances and grades.” He decided that changing his environment by transferring to Camosun would help him refocus his efforts on his studies. “I needed to completely change the way I was approaching things,” says Walter. “I decided to go into the Electronics & Computer Engineering Technology – Renewable Energy program because with the two-year time frame I could get into the workforce sooner rather than later.” The switch has been nothing but positive. Walter enjoys the hands-on experience working with high-tech instruments and software, as well as the program’s tight-knit cohort. It has also changed Walter’s perspective on his future. “My time at Camosun has shown me that there is so much work to be done in preparing the world for a shift to renewable energy and increasing automation.”

As an international healthcare professional, Shirolyn was looking to study in a field related to her previous career. “Studying something new, in a short program, was always my goal as a stepping stone to further my career,” says Shirolyn. The Certified Medical Laboratory Assistant program was exactly the exciting, self-improvement opportunity for her. “I feel like going to school feeds my adventurous side as I encounter new people and new ideas in life,” says Shirolyn. She valued the program’s laboratory activities that replicated true to life scenarios. “These invaluable experiences helped prepare me for situations I would face in my practicum and in the workplace,” she says. After completing the practicum, Shirolyn found employment with Canadian Blood Services as a Donor Care Associate. “I am grateful to the Camosun staff and instructors for helping me develop my skills, sharpen my knowledge, and fully preparing me for my new career.”

BEFORE ATTENDING CAMOSUN and, ultimately, finding the Massage Therapy diploma program, Dumont lacked direction in his education. “I didn’t see the end goal or aim of my schooling,” says Dumont. “Now, I’m so excited to be studying something where I can truly grasp the job that I’ll have when I graduate.” Once he decided on the program, Dumont looked for the financial support he needed. Fortunately, his band, the Samson-Cree Nation, as well as the Victoria Native Friendship Centre helped. “They have been so incredibly generous and supportive, making my dream a reality,” says Dumont. “Also, the Indigenous Academic Advising team at Camosun are unwaveringly supportive, knowledgeable and helpful.” Dumont is now preparing for a profession that he’s excited and passionate about. “I have a clear sense of purpose and direction that I didn’t have previously,” says Dumont. “The Massage Therapy program provided me with the direct route to come into my own and manifest the success that I always knew I was capable of achieving.”

“I HAVE A CLEAR SENSE OF PURPOSE AND DIRECTION THAT I DIDN’T HAVE PREVIOUSLY.”

Dumont Omeasoo, Samson-Cree First Nation

“IF I AM MAKING A POSITIVE IMPACT ON SOMEBODY’S LIFE, THAT’S WHAT BRINGS ME JOY.”

Kyle Butterworth
STUDENT-ATHLETE,
SPORT & FITNESS LEADERSHIP

KYLE ALWAYS WANTED TO LIVE ON VANCOUVER ISLAND but when it came down to choosing a school he knew it had to be somewhere he could continue his career as an athlete. “Camosun has an incredible athletic department,” says Kyle. “I’m a proud member of Camosun’s very competitive Chargers Men’s Volleyball Team. I hope to leave my mark not only as a player but as a student as well.” Having found a home for his athletic talents he needed to figure out where he wanted to go with his career. Kyle started in the University Transfer program and quickly found a new path. With help from the advising staff, he changed programs and enrolled in the Sport & Fitness Leadership degree program. “Camosun has helped me realize that I really want to do something where I am constantly helping other people, whether it be health related or maybe education,” says Kyle. “If I am making a positive impact on somebody’s life, that’s what brings me joy.”

YOU COULD SAY COVID-19 GOT WILLEM INTO WOODWORKING. “The restaurant I was serving at shut down due to the pandemic and I was out of work for four months,” says Willem. “During that time, some woodworking YouTube videos caught my interest and I decided to build a workbench in my apartment.” From there, he bought some basic tools, got some wood and then built a shoe rack, bed frame and then a bed in his minivan for camping. He was hooked. “For me, woodworking is great because the learning and creativity are seemingly endless,” he says. “I recently built a wooden laundry hamper and I never knew I could care so much about such a mundane object.” He had heard great things about Camosun’s Fine Furniture program before applying, with a friend describing it as the most fun year of his life. “The workload is pretty heavy at times, with multiple projects on the go,” says Willem. “But you know you’re learning something fun when you don’t want to go home at the end of the day.”
UPGRADING

If you need to upgrade your high school marks or prepare for college or university, Camosun offers upgrading courses to get the requirements you need. With self-paced courses starting anytime, there is no better time than now. Every year, our instructors help hundreds of students reach their goals in a supportive learning community.

DUAL CREDIT

START COLLEGE WHILE YOU’RE STILL IN HIGH SCHOOL.
Through a partnership with South Vancouver Island school districts, Camosun offers dual credit courses and programs. If you’re in grade 10, 11 or 12, you may be able to earn high school and college credits at the same time, with college tuition fees covered by your school district. Contact your high school career coordinator to find out what is offered by your school and how to apply.

camosun.ca/dual-credit
Once at Camosun, enrich your experience by taking advantage of Co-operative Education and Internship programs. You’ll have the opportunity to alternate between full-time studies and full-time work terms. These programs afford you the opportunity to apply your learning in the classroom to a real-world work environment, helping to prepare you for your career.

camosun.ca/cecs

CAREER SERVICES
Camosun provides students and alumni with free career development resources and coaching to help you enter the workforce or make a career transition. These services include:

- resumés and cover letter review
- interview prep
- job search strategies
- workshops
- career development seminars
- career speaker panels
- career events
- employer information sessions
COST
Camosun courses cost less than at a university. Significantly less. It can work out to being a savings of about 40%. This means less of a financial hit but doesn’t mean we’re skimping on quality.
camosun.ca/fees

FINANCIAL AID
While attending college you may need to find more than one source of funding to help pay for your education and living costs. Camosun’s Financial Aid & Awards office provides access to sources of money that you don’t need to pay back, those that do need to be repaid, and scholarships and awards information.
camosun.ca/financialaid

INDIGENOUS ADVISORS
Here to help you both before and after you become a Camosun student by providing educational, financial, and cultural support and information.

COUNSELLING
Our team of professional counsellors are here to support you and help you be successful and stay healthy during your time at Camosun.

OFFICE OF STUDENT SUPPORT
Here to assist you through life challenges that are impacting your personal, social, and academic success.

CENTRE FOR ACCESSIBLE LEARNING
Here to support any student who self-identifies with a diagnosed disability. Helping you achieve your educational goals by arranging and coordinating appropriate and reasonable supports and accommodations.

ACADEMIC ADVISORS
Here to help you understand the post-secondary system and develop the skills to navigate your academic journey.

HELP CENTRES
Here to provide support for all levels of coursework in any subject, one-on-one tutoring, tips and tools, and quiet space to work on your own or with other students.

ADMISSIONS
Here to provide guidance to prospective students, support students’ educational and personal goals and to ensure a second-to-none experience while you’re at Camosun.

INTERNATIONAL COUNSELLORS
Here to help international students adjust to living in Canada. We’re trained to assist students with personal, educational and cultural challenges, career counselling, and the transition when you return home.

LIBRARY & WRITING CENTRE
Here to help you – online or in person – with your research, writing and citation needs. Borrow books, laptops, and other course related materials; access quiet spaces to study and spaces to work with your classmates. Librarians and Writing Consultants are available to provide you with expert advice.
NOW THAT YOU’VE DECIDED TO JOIN US, APPLY TO CAMOSUN COLLEGE IN 4 STEPS:

STEP 1: CHOOSE YOUR PROGRAM
Decide on one of our 160+ programs. For some this is the easiest step but for others it may be one of the hardest. An Admissions Advisor can help. Don’t be afraid to ask questions.

STEP 2: APPLY
If you’re a BC/Yukon High School student in grade 12, you can apply online for provisional admission between September 15 and May 15. You can request official transcripts through the Ministry of Education Student Transcripts Services (studenttranscripts.gov.bc.ca) and have them sent directly to us electronically.

If you’re 19 or older, or you attended high school outside of BC or Yukon, apply anytime.

STEP 3: MEET PROGRAM ADMISSION REQUIREMENTS
For most programs, Camosun admits applicants on a first-come, first-served, first-qualified basis. “Qualified” means that you have met all the academic and non-academic admission requirements for your chosen program. The program pages at camosun.ca contain full admission requirement details. Plan to take the required courses for admission into your program.

STEP 4: SUBMIT PROOF OF REQUIREMENTS
All transcripts will need to be sent directly from the institution you attend/ed, the Board of Education or the Ministry of Education.

camosun.ca/admissions
PATHWAYS INTO CAMOSUN

THE ADMISSION REQUIREMENTS LISTED ARE GUIDELINES ONLY.
For full details and options, please read the program pages at camosun.ca

TO USE COURSES YOU TOOK IN HIGH SCHOOL AS YOUR ADMISSION REQUIREMENTS:

• Courses need to be completed with a minimum letter grade.
• For some programs, more than one type of math course will be accepted.
• English 12 First Peoples may be used in place of English Studies 12.
• If your high school courses were taken more than five years ago, upgrading is recommended to support your success.

OR YOU CAN USE CAMOSUN COURSES TO GAIN ADMISSION REQUIREMENTS.

• Apply for the Academic Upgrading program to take alternatives to high school level Math, English, Biology, Chemistry or Physics.
• If necessary, an assessment through our Assessment Centre can be taken to meet admission requirements in math and English or place you in an upgrading course.
• ESL: Camosun offers eight levels of English as a Second Language training from beginning to advanced levels. camosun.ca/esl
• Off-campus, community-based upgrading courses are offered for Indigenous learners. camosun.ca/indigenous-students
• Career Access certificate programs let you get started in your chosen program while you upgrade your admission requirements. Available for Engineering Technologies.
• Entry-level employment skills: Employment Training & Preparation offers workplace literacy and numeracy as well as introductory career programs. camosun.ca/etp

## PROGRAM & DESCRIPTION

### Athletic & Exercise Therapy degree
Focuses on prevention, immediate care and rehabilitation of musculoskeletal injuries. Accredited by Canadian Athletic Therapists Association.

### Kinesiology, Diploma
The program prepares graduates to design and implement personalized exercise and physical activity programs and lifestyle education programs as personal trainers or other fitness professionals.

### Massage Therapy
Gain advanced knowledge and practical application of the skills necessary to provide safe, effective and ethical massage therapy that meets the College of Massage Therapists of BC's entry-to-practice requirements.

### Sport Management diploma or degree
Transfers to sport-related careers such as event coordination, facilities, sales or team management. Internship optional.

## PROGRAM & DESCRIPTION

### Apprenticeship Training
Required technical training for apprenticeships: Automotive Service Technician, Carpenter, Domestic/Commercial Gas Fitter, Electrician, Metal Fabricator, Plumber, Professional Cook, Refrigeration & Air Conditioning Mechanic (Level 1), Sheet Metal Worker, Sprinkler Fitter, Steam/Pipe Fitter, Welder.

### Automotive Service Technician Foundation certificate
Prepares grads for entry-level employment or apprenticeships in all aspects of automotive repair.

### Carpentry Foundation certificate
Prepares grads for entry-level employment or apprenticeships in light and heavy construction.

### Electrical Foundation certificate
Prepares grads for entry-level employment and apprenticeships in the electrical trade.

### Fine Furniture – Joinery Trades Foundation certificate
Leads to employment in furniture design, construction and refinishing. Grads earn dual credentials in Fine Furniture and Joinery.

### Heavy Mechanical Trades Foundation certificate
Prepares grads for entry-level employment or apprenticeships in heavy duty, truck and transport, diesel engine, and transport trailer trades.

### Horticulture Technician certificate
Leads to employment in horticulture industry including landscaping, parks, nurseries, etc. Starts in July, and offered off-campus at Royal Roads University.

### Nautical training
Prepares students for entry-level positions as a seafarer and provides upgrading toward advanced levels of marine certification as Master or Mate. Call 250-370-4016 for info.

### Plumbing & Pipe Trades Foundation certificate
Prepares grads for entry-level employment or apprenticeships in plumbing, steam/pipe fitting, sprinkler fitting, or gas fitting.

### Professional Cook Level 1 certificate
Provides technical and practical training for a career as a professional cook. Grads may seek entry-level employment or continue on to Level 2 training.

### Refrigeration & Air Conditioning Mechanic Foundation certificate
Prepares grads for entry-level employment or apprenticeships in the refrigeration and air conditioning field.

### Sheet Metal & Metal Fabrication Foundation certificate
Prepares grads for employment or apprenticeships in construction, shipbuilding and aircraft manufacturing.

### Welding Foundation certificate
Prepares grads for entry-level employment and apprenticeship in welding.
