THE WORLD IS CHANGING FAST

CHANGE FASTER

@ CAMOSUN

Camosun College serves the communities of southern Vancouver Island and the south Gulf Islands that are located in the traditional territories of the lək̓ʷəŋən (Esquimalt and Songhees), Malahat, Pacheedaht, Scia’new, T’Sou-ke and W̱SÁNEĆ (Pauquachin, Tsartlip, Tsawout, Tseycum) peoples.

We acknowledge our traditional hosts and honour their welcome and graciousness to the students who seek knowledge here.

We know learning doesn’t happen just in the classroom; learning by ‘doing’ is the best way to build the skills you’ll need to keep a step ahead in the ever-evolving world of work. That’s why over 85% of Camosun courses and programs include experiential education and applied learning opportunities.

SMALL CLASS SIZES
At Camosun, the average class size is 30 students allowing instructors to work closely with students.

CAREER READY
Camosun students graduate with the skills they need to succeed. 93% of our grads say they felt well prepared for the workforce.

START HERE. GO ANYWHERE
Camosun offers a number of pathways and high-impact experiential learning opportunities to prepare you for the next step in your educational journey.

IMPACT
Camosun has earned an outstanding reputation for teaching excellence—we’re proud of our faculty, staff and students, and the fact that we provide one of the best learning experiences in Canada.

Our impact as a college extends well beyond our 68,000+ highly skilled, job-ready alumni. We provide industry-training opportunities for small and medium sized local businesses; research, innovation and prototyping services for industry; and various work-integrated learning and career opportunities.

Camosun College’s name is rooted in an area of the city and in the lək̓ʷəŋən legend of “Camossung – where different waters meet and are transformed.” In this legend, the Transformer, Haylas, a key figure in Coast Salish mythology, was travelling with Raven and Mink, teaching the people how things were to be done. They found a young girl, named Camossung, and her grandfather. She was crying, so Haylas asked her why.

She answered, “My Father is angry with me and will not give me anything to eat.” Haylas offered her many things until she finally accepted duck, herring, coho, and oyster.

Because Camossung was greedy, Haylas told her she would look after the food resources for her people and he turned her and her grandfather into stone.

Today, a statue of Camossung still guards and protects what we now know as the Victoria waterways of Tillicum Narrows on the Gorge waterway, the site of the only reversing rapids in Western Canada. In 1971, when the college was established, it adopted the name “Camosun,” and its meaning is as true today as it was then: a vibrant, life-changing centre where students, faculty and staff from different backgrounds meet, learn together and are transformed.

Adapted from the teachings of Cheryl Bryce, Songhees Nation
Camosun’s Lansdowne and Interurban campuses, along with five community partner learning sites, offer over 160 innovative, life-changing academic and applied learning programs to thousands of students each year.

We’re large enough to provide great services and facilities for a vibrant campus environment on beautiful South Vancouver Island, yet small enough to offer you the individual and personal support, care and attention not found in most post-secondary institutions.

Historic Lansdowne campus has spectacular clear-day views of Victoria and the Olympic Mountains. It is a 5-minute walk from shopping and restaurants, 10 minutes from the University of Victoria, and 15 minutes from the downtown core. The Interurban campus sits in a more rural setting but is still a quick and safe cycle or bus ride from downtown.

Take a tour: camosun.ca/tour
Join one of the 40+ student clubs, hit the gym and take advantage of personal trainers and classes. Check out Pub Nights at the Dunlop House, the student-run pub or grab some coffee at one of several on-campus coffee shops. Enjoy a student-created lunch at the Culinary Arts cafeteria or grab a bite from Camosun’s own Cuisine Machine food truck. And we have a pizza vending machine!
For the first time in nearly two years, the Chargers men’s and women’s basketball and volleyball teams returned to the court for a shortened 2022 season of competition. And what a season it was!

The men’s volleyball team had a banner season, winning Pacific Western Athletic Association (PACWEST) gold and advanced to the Canadian Collegiate Athletic Association (CCAA) national championship. The team played an undefeated tournament, winning nine straight sets, and captured the national championship title.

This season, we will raise the banners at their first home game to honour their success and be reminded that we are all Chargers!

It takes a team to ensure all home games run smoothly. We hired 15 students to work in various roles from ticket sales, score keepers, game announcer, video production, and our mascot, Rampage. Applications open in the Fall Semester.

“CREATE. EXPLORE. PREPARE.”

Rhys Anderson
COMICS & GRAPHIC NOVELS

“I’ve been interested in art since I was a child,” says Rhys Anderson. “That’s why I chose to come to Camosun. I was looking at a career in character design and concept art for videogames, TV, movies and other media, and the Comics and Graphic Novels program seemed like a good fit. The program is an excellent opportunity to learn many of the skills I’ll need for my future!” Unfortunately for Rhys, during her second semester, she had a relapse of a chronic illness and wasn’t able to attend her classes for most of the semester. “My teachers were incredibly understanding regarding my time off and willing to work with me on making my assignments and deadlines work for me. They really went above and beyond to check up on me and make sure I was doing alright.” Now that she’s completed the program Rhys provides some wise advice. “You’ll meet lifelong friends at Camosun! Make sure to branch out and don’t limit yourself to one area; make friends with people in other courses who don’t always have all the same interests as you.”

UNIVERSITY TRANSFER
The Province of British Columbia has established the world-renowned BC Transfer Guide, bctransferguide.ca, which allows students to transition from one post-secondary institution to another. You can study for one to two years at Camosun and transfer your credits to a university to finish your program. It is also possible to transfer to universities in other provinces across Canada.

camosun.ca/ut
Originally, I thought the hospitality industry was all about service and guest satisfaction,” says Lorenzo Gomes. “But Camosun’s Tourism and Hospitality Management program taught me it’s much more than that. It’s about the people, the community, about the land we live on and how all these play a vital role in ensuring that a business is a success and sustainable.” A lot of what Lorenzo learned at college came from those around him. “Almost all my classes included students from other courses, with different experiences and backgrounds. The diversity of each students’ personal experiences made our classes interesting.” He began the program during the pandemic and credits the support that he received during that time for his success. “The faculty were all very accommodating and offered support when required. Camosun provided the perfect work and study life balance.”
As a child, Lacey Reay was diagnosed with Epilepsy. “It really impacted my mental health,” says Lacey. By high school she had lost interest in her academics and just focused on the gym, the field and the shop/tech wing of her school. “I came to Camosun not really knowing what I wanted to do.” She originally came to Camosun to play for the Chargers and then enrolled in the Civil Engineering Access program, which offers insights into all the engineering disciplines. “When we toured Camosun Innovates as part of our Mechanical Engineering section, I was hooked!” She attributes her success to the encouragement she received from her instructors and peers. Camosun’s Centre for Accessible Learning also helped her with the effects of her Epilepsy. “It was a relieving support,” says Lacey. “There are so many people at Camosun who want you to succeed.”

There are so many people at Camosun who want you to succeed!

Read about Lacey’s contribution to the new design of the torch for the B.C. Summer and Winter games.
When Jaime Desjarlais decided to take the fast-tracked Health Care Assistant program at Camosun, it meant she had to move to Victoria, leaving her family, close friends and an established career behind. “It was hard but, I did my research and it seemed Camosun offered a lot of resources and support for students,” says Jaime. One of the best things she experienced was meeting people from all walks of life. “I loved seeing all the diversity on campus and how welcoming and kind the staff are. Whenever I needed help with assignments, or even personal matters there was always someone there. It made it easier to be successful in the program.”

The Health Care Assistant program is Jaime’s first step into the health care field. “It’s a great way to get insight on how the health care system works. I’ve gotten to experience working at three different facilities and meeting some amazing people along the way.” What does the future hold for her? “My next goal is to enroll into Practical Nursing. My plan is to eventually move back to my community and work as a nurse there.”
I AM ENCOURAGED TO SPEAK OUT AND SELF ADVOCATE.

Alisha Parks | Mohawk, Irish and Danish ancestry
INDIGENOUS STUDIES PROGRAM

“Deciding to go to college was not an easy choice for me,” says Alisha Parks. “I’ve always encountered issues surrounding accessibility in the past.” Now a student in the Indigenous Studies program, Alisha has overcome some of the challenges by working with Camosun’s Centre for Accessible Learning, while being supported by the college’s Indigenous advisors, instructors, local Elders, and her classmates. “Being open about my disability has really been rewarding in that I am encouraged to speak out and self-advocate. This in turn helps inspire me to do research, advocate for others and push for systemic changes.” Alisha started her journey at Camosun by taking upgrading courses, which gave her a smooth transition into the Indigenous Studies program. “It’s one of the best programs I’ve come across. This is a program where you can explore who you are and your location in this journey. It’s where you’ll find your own unique voice.”

Read more about Alisha’s project, “Heartberry methodology: decolonizing how Camosun supports disability”
Micah Collins enrolled in economics at university right after high school. Although he enjoyed his economics courses, he felt that something was missing. “I wanted to use the things I was learning and put them into a sports context. That’s what I’m passionate about,” says Micah. The next year, he transferred to Camosun and started the Sport Management program. “It was a perfect fit.” Being an introvert, university was more comfortable for Micah because he was on his own a lot. “Being in Sport Management I now have to do a lot of presentations and group projects. It’s definitely made me more extroverted, confident, and willing to try new things. Having been a student here for the past four years, this is definitely the best school for me.” Moving forward, Micah wants to take what he’s learned and apply it to his future career. “Post-degree I want to take those perspectives and experiences to help change the organizations I am involved with to be more inclusive and enjoyable for everyone.”

IT’S BEEN ONE OF THE BEST DECISIONS I’VE EVER MADE!

Morganna Sampson
SHEET METAL AND METAL FABRICATION FOUNDATIONS PROGRAM

“I started my post-secondary journey by getting a diploma in Business and Marketing,” says Morganna Sampson. “After graduation, realizing the competitive job market and my disinterest in wanting to have a desk or online job, I chose to switch career paths into the trades. It’s been one of the best decisions I’ve ever made!” As a woman in the trades, Morganna expected to be in the minority. “I was surprised to find out that the majority of my classmates in Sheet Metal and Metal Fabrication were women. It’s really great to see others bravely pursuing career paths which go against stereotypical norms.” When asked about her experience at Camosun, she says it was “the instructors and poutine” that impressed her. “The best thing about my experience at Camosun is the instructors really want to see you succeed. They make an effort to assist whenever they can. And the delicious breakfast and regular poutine found at the diner on campus are the best!”

WORK WITH YOUR HANDS. BUILD. FIX. CRAFT.
RETHINK YOUR CLASSROOM

STUDY ABROAD
Study abroad experiences help you develop intercultural and second language competencies – skills in demand by a growing number of employers. Expand the walls of your classroom and jump into life in another country. You’ll gain a better understanding of the world’s cultures, politics and geography.
camosun.ca/studyabroad

CO-OPS AND INTERNSHIPS
Co-op and Internship work terms give you the chance to work in an industry related to your area of study. By participating in a work term, you join a growing number of students who choose to participate in this incredible and empowering learning opportunity.

Co-op or Internship work terms will give you the chance to alternate between full-time studies and full-time paid work, better preparing you to embark on your career after graduation.
camosun.ca/coop

APPLIED LEARNING
At Camosun College, applied learning is an approach to education that reflects the complexity of the rapidly changing world around us. In every area of study across the college, you’re guided through authentic learning experiences that are designed to develop your skills by tackling real issues facing society, government, business and industry.
START COLLEGE WHILE YOU’RE STILL IN HIGH SCHOOL.
Through a partnership with South Vancouver Island school districts, Camosun offers dual credit courses and programs. If you’re in grade 10, 11 or 12, you may be able to earn high school and college credits at the same time, with college tuition fees covered by your school district. Contact your high school career coordinator to find out what is offered by your school and how to apply.
camosun.ca/dual-credit

DUAL CREDIT

PREP PROGRAMS

EMPLOYMENT PREPARATION
Need a hand deciding where you want to go with your education? Let Camosun help. Take advantage of our Employment Training and Preparation programs or the Education & Career Planning (EDCP) program to examine your interests, abilities and potential to make an informed decision about your future.
camosun.ca/edpc
camosun.ca/etp

UPGRADING
If you need to upgrade your high school marks or prepare for college or university, Camosun offers upgrading courses to get the requirements you need. With self-paced courses starting anytime, there is no better time than now. Every year, our instructors help hundreds of students reach their goals in a supportive learning community.
camosun.ca/upgrading

ESL
Camosun offers English as a Second Language classes at all levels. Learn from highly qualified and committed instructors who will help you succeed.
camosun.ca/esl-programs
Now that you’ve decided to join us, apply to Camosun College in 4 steps:

**Step 1: Choose Your Program**
Choose one of our 160+ programs. Decide on the program that best suits your interests and goals.

**Step 2: Apply**
Check the admission requirements for your program and ensure you meet all the criteria. Applications are accepted throughout the year.

**Step 3: Meet Program Admission Requirements**
For most programs, Camosun College admits applicants on a first-come, first-served basis. “Qualified” means that you have met all the academic and non-academic admission requirements for your chosen program. More information is available on the Camosun website.

**Step 4: Submit Proof of Requirements**
All transcripts must be sent directly from the institution you attend/ed, the Board of Education, or the Ministry of Education.

---

**Cost**
Camosun courses cost less than at a university. Significantly less. It can work out to being a savings of about 40%. This means less of a financial hit but doesn’t mean we’re skimping on quality.

[camosun.ca/fees](http://camosun.ca/fees)

**Financial Aid**
While attending college you may need to find more than one source of funding to help pay for your education and living costs. Camosun’s Financial Aid & Awards office provides access to sources of money that you don’t need to pay back, those that do need to be repaid, and scholarships and awards information.

[camosun.ca/financialaid](http://camosun.ca/financialaid)

**Indigenous Advisors**
Here to help you both before and after you become a Camosun student by providing educational, financial, and cultural support and information.

**Help Centres**
Here to provide support for all levels of coursework in any subject, one-on-one tutoring, tips and tools, and quiet space to work on your own or with other students.

**Admissions**
Here to provide guidance to prospective students, support students’ educational and personal goals and to ensure a second-to-none experience while you’re at Camosun.

**International Counsellors**
Here to help international students adjust to living in Canada. We’re trained to assist students with personal, educational and cultural challenges, career counselling, and the transition when you return home.

**Library & Writing Centre**
Here to help you – online or in person – with your research, writing and citation needs. Borrow books, laptops, and other course related materials; access quiet spaces to study and spaces to work with your classmates. Librarians and Writing Consultants are available to provide you with expert advice.

**Inclusion**
Here to help you understand the post-secondary system and develop the skills to navigate your academic journey.

[camosun.ca/apply](http://camosun.ca/apply)
TO USE COURSES YOU TOOK IN HIGH SCHOOL AS YOUR ADMISSION REQUIREMENTS:
- Courses need to be completed with a minimum letter grade.
- For some programs, more than one type of math course will be accepted.
- English 12 First Peoples may be used in place of English Studies 12.
- If your high school courses were taken more than five years ago, upgrading is recommended to support your success.

OR YOU CAN USE CAMOSUN COURSES TO GAIN ADMISSION REQUIREMENTS.
- Apply for the Academic Upgrading program to take alternatives to high school level Math, English, Biology, Chemistry or Physics.
- If necessary, an assessment through our Assessment Centre can be taken to meet admission requirements in math and English or place you in an upgrading course.
- ESL: Camosun offers eight levels of English as a Second Language training from beginning to advanced levels. camosun.ca/esl
- Off-campus, community-based upgrading courses are offered for Indigenous learners. camosun.ca/indigenous-students
- Career Access certificate programs let you get started in your chosen program while you upgrade your admission requirements. Available for Engineering Technologies.
- Entry-level employment skills: Employment Training & Preparation offers workplace literacy and numeracy as well as introductory career programs. camosun.ca/etp

Preparation offers workplace literacy and numeracy as required for work experience component.
### HEALTH CARE & HUMAN SERVICES

#### PROGRAM & DESCRIPTION
- **Certified Dental Assistant certificate**
  - Nationally accredited program prepares graduates to write National Dental Assistant Exam, and apply for license to practice as a Certified Dental Assistant.
- **Certified Medical Laboratory Assistant certificate**
  - Certified Medical Laboratory Assistants are frontline healthcare workers responsible for collecting human blood, body fluids, and physiologic data used by physicians to diagnose medical conditions.
- **Community, Family & Child Studies diploma**
  - Based on a principle of social justice, leads to careers that support families, youth, women, community outreach, etc. Transfers to Child & Youth Care degree programs.
- **Dental Hygiene diploma**
  - Prepares graduates for national certification and employment in clinical and community-based settings. Leads to UBC degree in Dental Hygiene with one additional year. Current high school students should apply for University Transfer Science to gain admission requirements.
- **Diagnostic Medical Sonography**
  - Prepares you for an essential role in the healthcare team by producing ultrasound scans used to diagnose, treat, and monitor a variety of medical conditions. Explore core sonographic competencies and one of three specialty disciplines, General, Cardiac, or Vascular.
- **Education Assistant & Community Support certificate**
  - Prepares graduates to work with adults and children with developmental disabilities in home, school and community environments. Transfers to Community, Family & Child Studies.
- **Early Learning & Care Diploma**
  - Qualifies graduates to work with children from birth to school entry in licensed, drop-in, infant-toddler, early childhood and preschool programs.
- **Health Care Assistant certificate**
  - Leads to careers helping seniors and others who require personal care in their home, care facilities or group homes.
- **Medical Office Assistant certificate**
  - Prepares graduates for clerical and administrative work in medical or health care offices.
- **Medical Radiography diploma**
  - Prepares students to produce radiographic (x-ray) images through academic studies and clinical practice. Graduates are eligible to sit for the CANRT national certification exam.
- **Mental Health & Addictions certificate**
  - Qualifies graduates to provide client focused intervention, rehabilitation and support for people with mental illness and addiction challenges.
- **Mental Health, Addictions & Criminal Justice certificate**
  - Apply an inter-professional approach to the provision of services and supports for individuals with mental health or substance use challenges in contact with the criminal justice system.
- **Nursing Science in Nursing**
  - A four-year joint degree program with the University of Victoria. Graduates completing RN will be eligible to write the required Canadian Registered Nurse Examination. Now accepting high school applicants.
- **Practical Nursing diploma**
  - Prepares graduates to write the Canadian Practical Nurse Registration Exam and to work as a Licensed Practical Nurse.

### SPORT & EXERCISE

#### PROGRAM & DESCRIPTION
- **Athletic & Exercise Therapy degree**
  - Focuses on prevention, immediate care and rehabilitation of musculoskeletal injuries. Accredited by Canadian Athletic Therapists Association.
- **Kinesiology diploma or degree**
  - The program prepares graduates to design and implement personalized exercise and physical activity programs and lifestyle education programs as personal trainers or other health professionals.
- **Massage Therapy**
  - Gain advanced knowledge and practical application of the skills necessary to provide safe, effective and professional massage programs.
- **Sport Management diploma or degree**
  - Transfers to sport-related careers such as event coordination, facilities, sales or team management. Internship optional.
